 Overview  Repositories 6  Projects  Packages  Stars

sudesangurr / README.md

About Me:

I improve my frontend skills, and work on data analysis with SQL.
I also develop data processing and analysis projects using Python.

I am open to collaboration on creative web design projects,
UI/UX development, and projects involving data analysis with SQL & Python.

Improving my JavaScript skills, learning industry tools like React,
and performing more advanced data analysis with Python + SQL.

JavaScript, web design principles, Adobe Photoshop & Adobe XD,
and data analysis with Python and SQL.

Web design, UI ideas, data analysis with SQL & Python, starting in
the tech field from scratch, and combining design and data.

I think aesthetically when designing, and I solve problems with Python
and SQL when analyzing data; in other words, I am active on both
the visual and analytical sides.
